### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey L. Snyder on March 15, 2006.

The application has been amended as follows:

Cancel claim 17.

In claim 13 line 11, after signal, insert – wherein said laser calibration factor and said bundle calibration factor are determined through a statistical sampling –

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's amendment, arguments and conducting an updated search none of the cited prior arts alone or in combination discloses the claimed feedback control for a laser having the recited limitations of independent claims 1, 4, 6, 9 and 13.

Regarding claims 1, 3-7, 13-16,

None of the cited prior arts discloses the claimed feedback control for a laser having the recited limitations of independent claims 1, 4, 6, 13, in particular determining the laser calibration factor and optical bundle calibration through a statistical sampling.

Regarding claims 9-12,

None of the cited prior arts discloses the claimed feedback control for a laser having the recited limitations of independent claim 9, in particular measuring a response slope of the laser calibration and optical bundle calibration and calculating the laser calibration factor and optical bundle calibration factor based on the response slope.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
